hampton and Yeppoon with generators and fuel over the weekend, which was very helpful for keeping

and central Queensland.

He said around Rockhampton and Biloela they were experiencing a very strong season, with rainfall from 200mm to 250mm registered last Thursday to Friday night.

To the west, Emerald and Cler-

Cairns, right on the coast the season is good, but west to Mt Garnet and to Charters Towers, the season is light on.

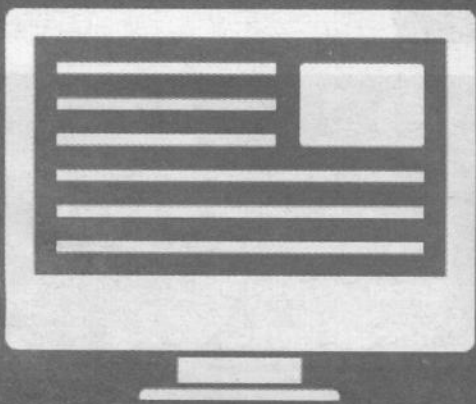

Bernie said west to Cloncurry, north to the gulf and also on to the Barclay, the season was a bit better,

McKinlay, Julia Creek, Richmond, Hughenden, and down to Winton and Longreach, with most of these areas receiving no breaks at all, apart from some very isolated but worthwhile falls. "To sum up for northern Queensland, the majority

hampton plant this Friday (February 27), while its Biloela plant started kills last Tuesday.

By mid-week, JBS Rockhampton was yet to decide when its Rockhampton plant would recommence its operations.
